

KAMYARAN ARCHITECTS, P.C.

Shahryar Iravani

February 21, 2015

To Sally Broomfield and Shahin Najafi, Artline Co., Dubai, UAE:

I have rarely been involved in a project as well managed as our recent pediatric dental office for Resalat Company's Shiraz Grand Hospital project. The company's approach and management process were obviously the result of a genuine care for their clients and is reflective of a lot of experience in the medical/dental field.

This company clearly understands its clients' needs and it also understands how each of the other team members (architects, engineers, and contractors) should work together. Their ability to facilitate communication ensured good team coordination and a "no surprises" outcome. Their personal attention and commitment to the project's value and quality kept the entire team in line and on the same page.

Finally, I was very impressed that they were able to structure and successfully deliver the project on such a tight schedule. This experience, coupled with their past successes, allows me to recommend Resalat Company investments without hesitation. I look forward to our next project!

Sincerely,

Shahryar Iravani
